

How to use Stacked Chat.

Your venue's own AI assistant. Ask it anything about how the business runs — **handbooks, opening & closing, suppliers, allergens, rotas, or fixing the tech** — and get a clear answer in seconds, drawn from your venue's own knowledge.

01

Get in — about 30 seconds

Open the link your manager shared. Pop in your **name, venue, phone and email**, then tap **"Start chatting"**. No password to remember — you're straight in.

02

Just ask, in plain English

Type your question like you'd ask a colleague. Every answer comes from your venue's own knowledge — and tells you its source.

"What's our refund policy?"

"How do I open the till?"

"Which coffee supplier do we use?"

"Card machine won't connect"

03

Handy extras

 **Attach a photo** — snap a broken screen or a document and the bot reads it.

 **Videos & photos** — if a guide video or image exists, it shows it.

 **Voice** — tap the mic and simply talk.

 **History** — your past chats are saved to pick back up.

FOR MANAGERS • ADMINS ONLY

Adding knowledge to the bot

Tap **"+"** to upload handbooks, SOPs, PDFs, Word docs or images, and use the **Admin panel** to add menu photos & videos, see simple stats, and manage your team. The first time you add something we email a **one-time code** to confirm it's you — **only admins can add or change content**.
